## **MANY VACANCIES FOR DENTISTS IN HOLLAND**

The Netherlands has had a reduction in the number of dentists year after year, and that is why for Dutch dental offices it is difficult to find new colleagues. To maintain a healthy Dutch dentistry and happy patients, we need dentists who come to work in the Netherlands from any country of the European Union. Dentists like you. Since 2012 we are helping European dentists to start their careers in the Netherlands. We have had very positive experiences with dentists who come from Spain and Italy and all those who have studied there; we know the quality of their training and the great ability they have to adapt to Dutch clinics. Therefore, we always look for motivated dentists who want to start their professional career in the Netherlands!

## COMPLETE APPOINTMENT BOOKS WITH QUALITY DENTISTRY

What to expect from a Dutch dental clinic? Patients generally come to control twice a year. Furthermore, Dutch dentistry has a high quality reputation, so you will not only make treatments such as simple fillings, you will also carry out prosthesis, endodontics and implantology. This variety of treatments will allow you to achieve high salaries. You could attend to between 15-25 patients every day! (They could be a little less at this time due to the current situation of the Covid-19 pandemic, but even tough, you can expect to have full agendas). The presence of an assistant will allow you to concentrate on the quality of treatment. This focus on efficiency and quality will allow you to acquire experience quickly and grow as a professional. Although you have complete agendas you will work up to 8 hours a day so you will have time to enjoy an adequate quality of life.

## PREPARE YOUR CAREER IN HOLLAND WITH THE HELP OF UCAM

As a dentist who works in a clinic in the Netherlands with the aim of performing the treatments mentioned above, you must trust your skills. Since 2012 we have selected dentists recently graduated. Although Spanish universities are known for their high level of education, sometimes it is a great challenge to take a first step at the beginning of your career in the Netherlands. For this reason a post-graduate program with Ucam, will be the essential bridge between your degree and the fact of feeling comfortable in a Dutch clinic. You will find a wide variety of post-graduate programs for dentists in Ucam, which will allow you to experience and increase your professional skills as a dentist and to prepare for your career in the Netherlands.

## START YOUR CAREER AS A DENTIST IN THE NETHERLANDS WITH BGB

We are looking for dentists who want to live and work for at least 3 years in the Netherlands, but before starting your career in the Netherlands and officially register as a health career, you have to get a B2+ level of Dutch. BGB has an officially recognized linguistic institute that offers you a course lasting 20 weeks (online part and presential part with other dentists) which will let you will reach the level enough of knowledge of the language to pass the exam. Also, we will help you find a clinic suitable for you, according to your personal and professional profile.

Go to the next page to learn more about the BGB program and you will see the steps to follow.

### WORK AS A DENTIST IN BGB VACANCIES

# BGB PROGRAM

WE HELP YOU FROM THE BEGINNING IN THE END

## GETTING TO KNOW EACH OTHER. PLEASED TO MEET YOU!

When you get in touch with BGB, the most important thing is to get to know you. What are your ambitions? Why are you thinking about moving to the Netherlands? But also: what do you expect from us? What are your doubts?

This helps us determine the best course of action to help you become a dentist in the Netherlands.

1

2

## LEARN THE DUTCH: A DUTCH COURSE DESIGNED FOR DENTISTS

Learning Dutch at the BGB Academy  
The BGB Academy offers you an extensive 20-week Dutch language program that we have developed specifically for dentists. In the first 10 weeks, you will master the basics of Dutch with e-learning at home. In the following 10 weeks, you will advance to B2+ level at the BGB Academy in Austria.

## A GUARANTEED JOB

BGB: A steady contract and job safety  
BGB offers you a steady contract with a guaranteed job. Because moving to a different country for your career is adventurous enough already, we feel it is important to be able to offer you this security, allowing you to focus fully on learning the language and your new job.

3

4

## LEARN WITH US

While you are working for BGB, you will have to update your dental knowledge to make quality dentistry. You can choose between the expert courses that PgO-UCAM offers you. BGB will take over 100% of its cost.

5

## EXTENDED GUIDANCE & SUPPORT

Staying in touch

Even after you have completely settled into your new job and home, BGB is still ready to assist you with anything you need. We always aim to help you with whatever issue you may encounter. We are also able to assist you on the business side of things later down the line, such as starting your own limited liability company or even taking over a clinic.
